
QUICK START GUIDE

FÖRSTER TECHNIK®

Automatic calf feeder - Powder

1.12 Recommissioning

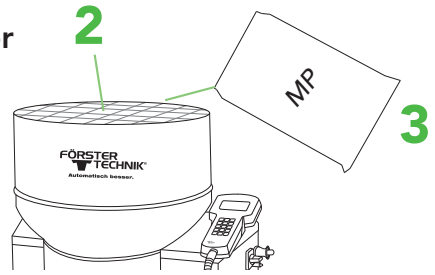
This document gives a brief overview of the most important steps when recommissioning a feeder.

1 Remove the protective cover

Place the feeder in the desired position and clean the outside with a damp cloth.

2 Mounting the protective grid/cover of the powder hopper

3 Fill up milk replacer



4 Connect water

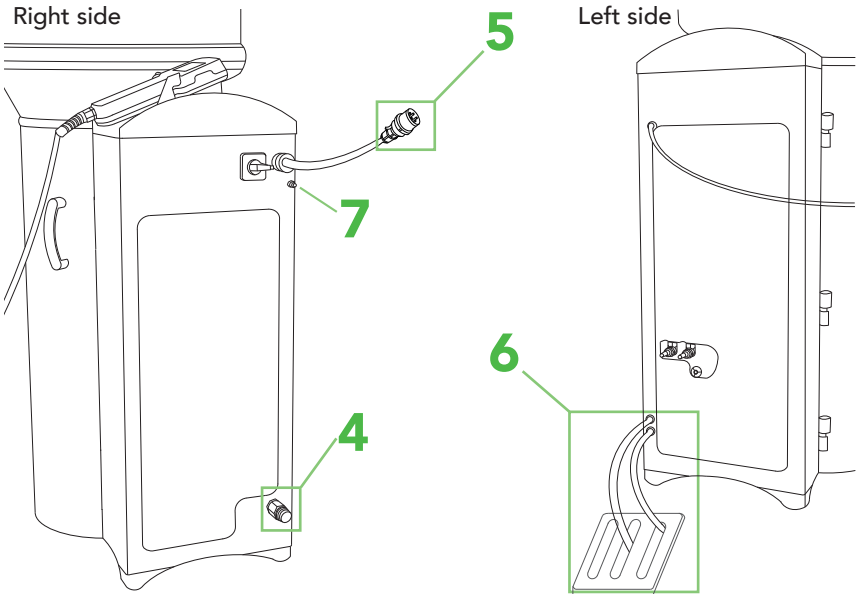
Use a new hose!

5 Connect power

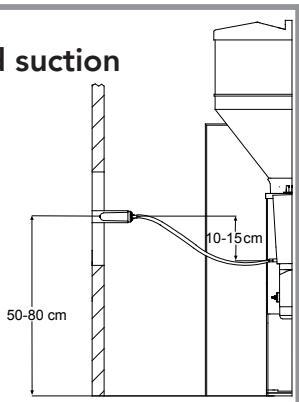
6 Provide draining options

- On the left side of the feeder
- In front of the feeder in the middle of the housing
- At every feeding station

7 Establish potential equalisation



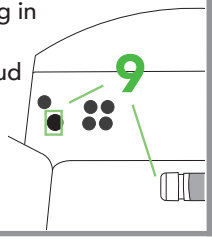
8 Attach new teats and suction hoses



9 Connect Ethernet cable and, if necessary, identification cable

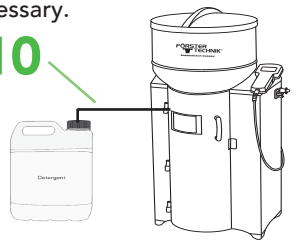
Remove dummy plug / sealing cap
Open door on the left side and plug in Ethernet cable

TIPP: check QuickStartGuide 2.3 CalfCloud

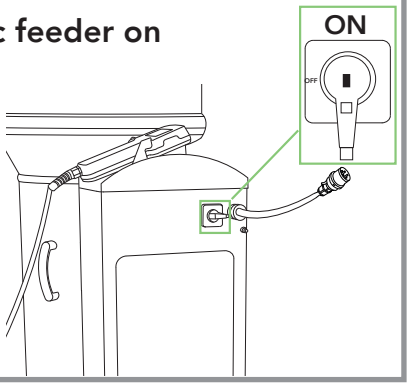


10 Install external detergent supply

Check storage level and re-fill if necessary.



11 Turn the automatic feeder on



This checklist refers to the basic equipment of the calf feeder. Not all available functions of the automatic feeder or the extensions can be shown.
For detailed information and valid warnings as well as safety instructions, please refer to the instructions manual. (Status 23/02)
